- Explain the conditions and features of the loan to each applicant. Applicant's name: _____
- Provide each applicant with (a) a Reverse Mortgage Information Statement (b) information containing ASIC projections of equity, and (c) each applicable fee schedule and product guide for the loan. Applicant's name: _____
Introducer's name: _____

Loan details

Important considerations

It is essential that each applicant understands the conditions and features of the loan. Key matters include the following.

- While the applicant(s) may choose to make repayments at any time to reduce the amount owing, there are no mandatory repayments required until the end of the term of the loan.
- Interest and fees (which may vary during the term of the loan) are capitalised monthly. These capitalising charges increase the amount owing. The amount owing will become larger more quickly than under a loan where regular repayments are required.
- The equity of the applicant(s) in the security property could be significantly reduced or completely extinguished during the term of the loan, depending on various matters (e.g. how much is borrowed, when it is drawn, interest rates, the term of the loan, whether any voluntary repayments are made, and how the value of the security performs over time).
- A projection of equity has been discussed with the applicant(s) and a loan amount selected with equity remaining that provides for future funding requirements.
- It is recommended that the decision to access home equity via a reverse mortgage be discussed with family members.
- Unless there is a misrepresentation or fraud, the maximum payment required is the net sale proceeds of the security property. This means that, if the amount owing (including capitalised interest and fees) is greater than the value of the security property, we bear the shortfall.
- The applicant(s) must pay all outgoings on the security property as required under the loan contract, such as insurance, rates, strata levies and the cost of maintaining the security property. Failure to pay those outgoings is a default under the loan contract. This means that this loan will not be suitable unless the applicant(s) are satisfied that they can service those outgoings throughout the term of the loan.

- The applicant(s) must complete a questionnaire annually and return it to us – the questionnaire concerns the condition of the security property, insurance, rates, and occupancy.
- The applicant(s) may not allow any person (other than the Nominated Borrower(s)) to permanently occupy the security property without our prior written consent. The loan therefore will not provide for any “tenancy protection provision” as set out in the national credit code.
- If the loan is a Standard Reverse Mortgage it has an indefinite term – unless there is a default or the security property is sold, the term ends only after the Nominated Borrower(s) cease to reside in their home.
- If the Aged Care Option is being used, the term is limited to a maximum of 5 years. This option will not be suitable if the security property is and will continue to be the Nominated Borrower(s) home.

Loan suitability

Note to introducer

You must include here details of discussions you have held with the applicant(s), including the following.

- Reasonable enquiries about the requirements and objectives of the applicant(s).
- Reasonable enquiries about the financial situation of the applicant(s), particularly the ability of the applicant(s) to pay insurance, rates and maintenance as required in connection with the loan.
- How the applicant(s) intend to finance any future move to permanent long-term care (if the loan is not intended for this).
- Whether the applicant(s) intend to leave equity in the security property, including for estate planning or other purposes.
- How the applicant(s) intend to meet any other possible future needs.
- Known credit history issues or defaults of the applicant(s) (including details of the outcome of each issue).
- That the loan amount is suitable to allow for home equity to fund the applicant(s) future needs (if required).

Please note, in place of completing this section, you may also provide a copy of your broker fact find or compliance documents confirming discussions held with the customer.

Certification

Note to introducer

I certify that I have provided information to the applicant(s) relating to the loan, including (a) a Reverse Mortgage Information Statement (b) information containing ASIC projections of equity and (c) each applicable fee schedule and product guide. Additionally, I certify that I have discussed the conditions and features of the loan with the applicant(s).

I certify that, in addition to the above, I have made reasonable enquiries as to:

- the requirements and objectives of the applicant(s).
- the financial situation of the applicant(s), particularly the ability of the applicant(s) to pay insurance, rates and home maintenance as required in connection with the loan.
- alternative strategies potentially available to the applicant(s) including sale/downsizing of the security property or sale of other assets.
- how the applicant(s) intend to finance any future move to permanent long-term care (if the loan is not intended for this).
- how much equity the applicant(s) wishes to leave in the security property, including for estate planning or other purposes, and that the requested loan will provide for future needs (if required).
- how the applicant(s) intend to meet any other possible future needs.
- known credit history issues or defaults of the applicant(s) (including details of the outcome of each issue).

I certify that I have recommended that the applicant(s) investigate the impact (if any) of the loan on any Government income support payments, entitlements or other benefits.

The loan projections which have been provided to you are intended to provide you with a guide of the impact of the reverse mortgage on the equity in your home.

We encourage you to review all these questions carefully. More information on aged care is available from www.myagedcare.gov.au or your nearest Centrelink office.
